# INTRODUCTION

The Michiana Area Council of Governments (MACOG) is the regional planning agency responsible for transportation planning in Elkhart, Kosciusko, Marshall, and St. Joseph Counties in Indiana. MACOG is the designated Metropolitan Planning Organization (MPO) for St. Joseph and Elkhart Counties, and serves as the Rural Planning Organization (RPO) for Kosciusko and Marshall Counties.

As the designated MPO for the region, Federal law requires MACOG to prepare a Transportation Improvement Program (TIP) to indicate how the Metropolitan Transportation Plan (MTP) will be implemented. The TIP identifies projects programmed regionally for federal funding under several programs, including the Surface Transportation Block Grant Program (STBG), Transportation Alternatives (TA), Highway Safety Improvement Program (HSIP), Congestion Mitigation Air Quality (CMAQ), Carbon Reduction Program (CRP), Federal Transit Administration Section 5307, 5309, 5310 and 5339 Programs, and other federal transportation programs.

MPOs are required under the Infrastructure Investment and Jobs Act (IIJA) to publish an annual listing of projects, for which funds have been obligated, in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

An obligation is the Federal government's legal commitment to pay the Federal share of a project. Projects for which funds have been obligated are not necessarily initiated or completed in the program year, and the amount of the

obligation will not necessarily equal the total cost of the project. For Federal Transit Administration (FTA) projects, obligation occurs when the FTA grant is awarded. For Federal Highway Administration (FHWA) projects, obligation occurs when a project agreement is executed and the state or grantee requests that the funds be committed to a project. It is noted that obligated funds may exceed the amount programmed in the TIP due to changes in a project that take place post letting.

In addressing the IIJA requirements, this report lists all transportation projects in the region that had obligations during state fiscal year 2025 (July 1, 2024 – June 30, 2025). The Annual Listing of Obligated Projects is consistent with the project listing in the TIP. This includes project description, designation number, as well as the amount of funds programmed in the TIP and its funding source.

This report is based on federal funding authorization and obligation information provided by the Indiana Department of Transportation and local transit providers, as MACOG is not directly involved in the obligation of federal funds.

## Report Columns

The first eight (8) columns in the listing reflect sufficient descriptive material (such as type of work, termini, and length) to identify the project or phase, and is consistent with information found in the Transportation Improvement Program.

*Federal Funding Type* and *Project Phase* include the federal funding that has been authorized or obligated and for which phases of the project.

The *Programmed Federal Funds* reflects the amount of federal funding included for the phase or phases in the FY 24-28 TIP. In some cases, no amounts are included, as it is assumed that Federal funding was included in a previous Transportation Improvement Program.

*Federal Advance Construction (AC) Change Amount* is the change in the Advance Construction for the last State Fiscal Year. AC is a fund management technique that allows INDOT to initiate a project using non-federal funds, while preserving eligibility for future Federal-aid funds. *Total Federal AC Amount* reflects the total amount of advance construction as of last state fiscal year ending.

*Net FY 25 Obligation* includes the amount of funding that was obligated in FY 25.

*Federal Funds Remaining Available* is a balance of the Net FY 25 Obligation compared to what is programmed in the 2024-2028 TIP or 2026-2030 TIP for subsequent phases.

Locally Obligated Projects: SFY 2025

County	Contract Number	Des Number	Project Sponsor	Route	Length (mi)	Project Description (Termini)	Type of Work	Federal Funding Type <sup>3</sup>	Project Phase	Programmed Federal Funds(for Phase(s) in the FY 24-28 TIP)	Federal AC Change Amount	Total Federal AC Amount	Net FY 25 Federal Obligation	Federal Funds Remaining Available for Project	Estimated Total Project Cost
